341 KILLED CELEBRATING THE FOURTH

DROWNINGS NUMEROUS

**Five are Victims of Light-
ning, a Feature Which the
Sane Fourth Movement
Will Not Reach.**

(Associated Press Telegram)
New York, July 5.—While the movement for safety and sanity in the celebration of the Fourth of July, worked wonders in the number of victims of the powder explosives, the country is recorded as having 341 persons killed in the day's celebration.

Twenty-eight persons were drowned, five persons were killed in automobile accidents, five in a single train accident, and two killed in aeronautic sports. The country's accident from the comparative few reports of minor tragedies filtering through the crush of holiday news, outnumbered the gunpowder accidents of the day more than two to one.

In this city and vicinity alone, there were ten drownings yesterday and the New England district reported five. There were six in the Ohio river at Louisville, three at Lacrosse, Wis., three at Pittsburgh and one at Buffalo.

Incidental to the day there were also five persons killed by lightning, one variety of holiday tragedies, that the safe and sane movement is unable to reach.

(Associated Press Telegram)
New York, July 5.—The death list was blank and the injured 34 yesterday in the Independence Day celebration. In former years the deaths have ranged from one to two to a dozen or more and the casualties sometimes have run into hundreds.

KILLED IN PREMATURE EXPLOSION

(Associated Press Telegram)
Aurora, Ill., July 5.—Miss Lula Minot, 22 years of age, daughter of J. E. Minot, a wealthy retired merchant, was killed in a premature explosion of fireworks late last night, just as the curtain dropped in a three days' homecoming celebration.

The explosion occurred on the New York street bridge crossing the Fox river. Thousands were wedged in on the bridge when the fireworks, which lay on a platform, attached to a top rider exploded. Miss Minot was on an island in the river about 50 feet away, and was killed when a sky rocket penetrated her breast.

**IT USUALLY
"TURNS UP"**

New York, July 5.—Almost twenty per cent of the children of playing age in New York City's streets "just stand around doing nothing, waiting for something to turn up."

This one of many points brought out as the result of a census taken simultaneously by 500 volunteer workers assigned to observe the children at play in the streets of New York between the hours of four and five o'clock on a given day. The time chosen was a sunny Saturday afternoon and the census included the count of 120,197 boys and girls in the streets.

Desperate Fighting In The Balkans With Heavy Losses On Both Sides

(Associated Press Telegram)
Vienna, Austria, July 5.—Desperate fighting has been in progress between the Bulgarians and Serbians since yesterday near Veles (Kopriv), according to the Sofia correspondent of the Neu Freie Presse. He says the Bulgarian troops repulsed the Serbian southern wing with heavy losses and expect to occupy Veles shortly.

The same correspondent telegraphs that a great battle extending over an area of 50 miles is being fought north of Saloniki, where 80,000 Greeks are opposed to 100,000 Bulgarians. The Bulgarians had made a number of minor attacks since last Monday with the object of inducing the Greeks to take the offensive. The bait was taken and the battle was begun. The result is expected to be a deciding factor in the Greek and Bulgarian campaign.

The strategy of the Bulgarian commanders forced the Greeks to abandon several fortified positions near Saloniki, Lagasa Lake and Beshik Lake. The Greeks are now threatened by an outflanking attack by a column of 3,000 Bulgarians advancing from the south of Tahynos Lake.

(Associated Press Telegram)
Belgrade, July 5.—Bulgarian troops have attacked Zayetchar, a Serbian entrance town, according to reports just received here. A serious engagement is expected during the day.

The newspapers state that the Bulgarian troops have been driven from the fortified positions they had taken up on the left bank of the river Bregalinitza and Zhenitzza, after their first defeat. Large numbers of prisoners were taken by the Serbians.

The Bulgarian attack on Zayetchar was repulsed after a severe battle.

(Associated Press Telegram)
Saloniki, July 5.—The Greek troops today captured from the Bulgarians the small town of La Hana on the railroad from Saloniki to Serres. It is considered the most important position in the vicinity and the key to Serres, which lies about twenty miles to the northeast.

The losses on both sides were considerable.

(Associated Press Telegram)
Constantinople, July 5.—The Ottoman government has not yet decided what action it will take in view of the Balkan situation but the opinion prevails here that Turkey will not allow the opportunity to escape of obtaining some material or moral benefit from the clash between the Balkan allies.

(Associated Press Telegram)
London, July 5.—Although no exchange of views has taken place between the European powers, it is understood that there will be no intervention in the Balkan conflict and that the belligerents will be left to fight out their quarrel, as was the case during the recent Turkish war.

(Associated Press Telegram)
London, July 5.—A disgraceful incident marked the arrival at Belgrade today of 1,384 Bulgarian prisoners of war, according to a special dispatch from the Serbian capital. The prisoners were marched through the streets in the presence of immense crowds of Serbians who closed in, cheering wildly at the rear of wagons loaded with wounded lying three deep many of them apparently dying. Even this did not stop the enthusiastic outbreak of the mob and the correspondent adds that peace between the two nations is impossible after this.

(Associated Press Telegram)
New York, July 5.—A graphic story of the battle between the Bulgarians and Greeks at Kilkish, 25 miles to the north of Saloniki, was received by the Greek daily newspaper, Attaitis, today direct from Saloniki. It says: "The battle between the Bulgarians (Continued on Page 6, Col. 3.)"

AUDITOR URGES NEW MACHINERY IN STATE SHOP

(Associated Press Telegram)
Columbus, O., July 5.—State Auditor Donald D. Taylor met with the Governor and reports of examinations of offices of the state fire marshal, state supervisor of public printing, and state bank superintendent, varying from the usual procedure, making a number of recommendations for changes in these departments which are under his supervision.

In the fire marshal's department, the auditor recommends that the field men in this department be required to file daily or weekly reports.

In the report of the office of the state supervisor of printing Auditor Donahy states that with the installation of modern machinery in the state bindery the output of the bindery could be almost doubled.

The report charges that C. R. Dodge of Cleveland, charged improperly to the state \$154.75 personal expenses, E. J. Vaughn of Columbus, \$112.25, and J. L. Wadsworth of Cleveland, \$170. These men were employed as examiners in the department. The examiners also found a considerable number of long distance telephone bills which appeared to be personal, and which had been paid by the state. Most of these were by former State Superintendent of Banks, Baxter, Mr. Baxter and other officials reimbursed the state when their attention was called to the matter.

APPLY TORCH TO CHURCHES.
London, July 5.—A Methodist chapel in the Welsh sea coast town of Pwllheli, the construction of which recently cost \$40,000 was destroyed today by fire, and attempt made also to burn down the Baptist Tabernacle in the same town.

COLUMBUS MAN HAS LEG BROKEN AT BUCKEYE LAKE

The only accident occurring at Buckeye Lake park on Friday, had for its victim, Donald Condon, of 947 Hunter street, Columbus. Condon was in the vicinity of what is known as the "Blue Goose" about 9 o'clock and in the darkness mistook the ground and stepped in a deep hole. His cries brought help and he was taken from the park to Hebron to the office of Dr. O. M. Kramer. An examination showed that he had received a compound fracture of the right ankle, the bone protruding through the flesh. The dressing was made by the physician and Condon was put aboard a Columbus car and sent to his home.

THREE ARE KILLED.

Daisy Markham, an actress, who was in the United States several years ago, though her acting was not so good that she is remembered by many, has just won \$250,000 from the Marquis of Northampton, a young man, who fell in love with her. When the boy's father told him he must not marry and finally compelled him to quit the actress, she brought suit. That was settled the other day, and by the terms the young lord, or rather his father, was compelled to pay the woman not only a quarter of a million, but the heavy costs of the suit.

DEATH MARS THE FOURTH AT UTICA, O.

**William Farmer Killed in
Fall From Motor-
cycle**

DASHED AGAINST CURB

**Victim Was Racing for a
Purse of \$10 When the
Accident Occurred—Lived
Two Hours.**

(Special to the Advocate)
Utica, July 5.—William Farmer, aged 20, a motorcyclist, was fatally hurt here yesterday afternoon when he fell from his machine while traveling at high speed in a motorcycle race which was one of the events of the Independence Day celebration. He died an hour and a half after the accident. Two theories are advanced as responsible for the accident. One is that the machine may have struck a small stone and the other is that the youth was overcome as a result of the excitement following his ride here from Columbus in the forenoon.

Farmer had owned the machine only about two weeks. He rode from Columbus yesterday forenoon to spend the day with his father at his home, a mile and a half east of Martinsburg. During the day he conceived the idea of entering the motorcycle races to compete for a \$10 purse.

The racers were started for a two mile contest on Main street, which is a mile long. At the end of the street they were to turn on the dirt road and make the return trip. The single cylinder machines were given a handicap over the two cylinder type. Farmer was leading on a one cylinder Indian.

Not far from the end of the street is a short incline. The youth passed this safely, but almost immediately persons sitting on porches along the street noticed the rider acting queerly and feared he had lost control of the machine. Suddenly it turned, throwing Farmer head downward, and dragging him in that way for possibly twenty-five feet. His leg appeared to be caught in the mechanism, and when the machine suddenly whirled, the rider's head was crushed against the curb.

O. C. Teague, president of the Utica Glass company, who lives near the scene of the accident, rushed out and was the first to reach the fallen rider. As he raised the limp form he discovered blood and brain oozing from the youth's head. He was placed on a cot in a nearby yard and three physicians were summoned. Later he was removed to the O. B. Alsford residence. All effort to revive him proved futile, and he remained unconscious until his death, an hour and a half later.

His father, Joseph Farmer, and a sister were summoned. They arrived shortly before his death. His (Continued on Page 8, Col. 6.)

RAILROADERS VOTE TO STRIKE FOR MORE MONEY

(Associated Press Telegram)
New York, July 5.—Officials of the Order of Railroad Conductors and Brotherhood of Railway Trainmen were busy today completing the count of the ballot of members on the question of a strike of the 100,000 trainmen and conductors on the eastern railroads. The result of the vote will be submitted to the railroads before it is made public, but in anticipation of the result, Edith Lee, chairman of Railroad Managers' committee, admitted today that the railroads had received advice giving the vote as overwhelmingly in favor of a strike if ordered by the leaders.

Although it has been known that the men wanted increases of about 15 percent in wages, the details of the demands are published for the first time today. For passenger service on runs of 100 miles or more a day, conductors on steam and electric trains want 2.67 cents a mile; baggage men, 1.97 cents a mile; flagmen or rear brakemen, 1.80 cents a mile, and brakemen, 1.74 cents a mile.

On runs of less than 100 miles conductors want \$4.80 a day, baggage men \$2.90, flagmen or rear brakemen \$2.80, and brakemen \$2.10. There are other specifications in detail for overtime work, including the demand that the trainmen who are ready for service the entire month, and who do not lay off on their own accord, receive \$135 a month, in the case of conductors; \$87 for baggage men, \$84 for brakemen.

In the freight service the demands are on the basis of 4.18 cents a mile for conductors on through trains and 3.84 on way trains.

Desecration of Flags Marked Celebration In Several Cities On 4th

(Associated Press Telegram)
Washington, July 5.—Two incidents, involving desecration of National flags which marked celebrations yesterday are expected to form the subject of complaints to the state department, though so far nothing has been heard from them.

The affair at Winnipeg, Manitoba, involving the trampling of an American flag at a British parade probably can not be made the basis of an official protest for the reason that international law does not guarantee the protection of flags of a foreign country, except where they are displayed over official buildings.

In the Tucson, Ariz., incident, however, where the flag over the Mexican consulate was torn down, the state department probably will feel obliged to request the local authorities to make a proper apology and amends to the Mexican consul if that can be done without involving any official recognition of the Huerta government which appears to be the great apprehension of the state department at this juncture.

(Associated Press Telegram)
Winnipeg, Manitoba, July 5.—An American flag was trampled in the mud and torn and an American who waved it was slightly injured and also rolled in the mud at Moos Jaw, Sask., late last night, according to word received here today.

The American whose name was not ascertained, scarcely had unfurled the flag on a lamp post, in the main street when he was set upon by a crowd which tore the flag from

him, hurled it into the street and then threw him into the mud. He was rescued by the police. Earlier in the evening Americans parading the streets were turned back to their hotels.

(Associated Press Telegram)
Tucson, Ariz., July 5.—The hauling down yesterday of the Mexican flag flying over the consulate of Alejandro Anisile, was made today the subject of report to the Mexican embassy at Washington. Consul Anisile also made a formal protest to Mayor Huffman.

Prominent Mexican residents here are formulating a protest to be sent to the state department at Washington.

On the morning of the Fourth, the Mexican flag was removed and the American banner hoisted in its place. It was said today that small boys made the exchange, encouraged by men.

(Associated Press Telegram)
San Francisco, Cal., July 5.—The National ensign of Paraguay was cut yesterday from its staff on the roof of the residence of Estorje Calderon, consul general for Paraguay in this city during his absence. Consul Calderon had been surprised earlier in the day by a visit from two men who demanded that the flag be lowered.

"Foreign flags don't go on the Fourth of July," they said. Later a housemaid heard a noise on the roof and saw a man hurrying away with the flag.

ONLY ONE OF THE BALLOONS IS LOCATED

Kansas City, July 5.—The aero club was without advice from any of the four balloons now in the air struggling for the right to represent America at the International races to be held in Paris this fall.

G. M. Myers, president of the local club, said he believed the reason the bags had not been reported was because the pilots had sought a high altitude, in the hope of striking favorable air currents, and thus could not easily be seen.

With the landing of one of the bags now in the air, the American team that will go to Paris, will be known. The team is to be composed of three balloons. The fact that two of the bags scheduled to start yesterday collapsed a third was withdrawn because of valve trouble and R. F. Donaldson's accident, when he still was in view of Aviation field has taken much of the interest from the race. Local officials would not discuss today the protest filed last night against the two Kansas City bags by St. Louis and Chicago men, saying it was a matter now up to the Aero club of America, and there was nothing further to say until the contest committee of the organization rendered its decision. The protestors were permitted to take gas illegally after the "Million Population club," Captain Berry, St. Louis, had risen from the field.

Benton Harbor, Mich., July 5.—Flying high in the air, a balloon, which is believed to have been one of those that left Kansas City yesterday, passed over Benton Harbor at 8:30 this forenoon.

The air craft was sailing in a southeasterly direction and had evidently crossed Lake Michigan during the night.

(Associated Press Telegram)
St. Louis, Mo., July 5.—The Post-Dispatch today received the following telegram from the Balloon Kansas City Post:

Joliet, Ill., July 5.—Balloon Kansas City Post found. In storm all night.

Signed,
"HONEYWELL AND GIFFORD."

(Associated Press Telegram)
South Bend, Ind., July 5.—A balloon believed to have been one of the entrants in the race, which started from Kansas City yesterday, passed over South Bend at 10:20 this morning. It was high in the air and headed in a northeasterly direction before a stiff breeze. No insignia of any kind was visible.

(Associated Press Telegram)
Kansas City, July 5.—A message received by the Kansas City Star at 2:30 this afternoon, from Madison, Wis., said a large white balloon believed to be one of the National contestants had passed over that city, sailing rapidly east toward Lake Michigan.

(Associated Press Telegram)
Jackson, Mich., July 5.—A large balloon passed over this city at 12:15 p. m., bound in a southeasterly direction. It is thought to have been one of the Kansas City balloons but there was nothing to indicate its identity.

FOUND DEAD IN CELL.

VETERANS LEAVING BIG CAMP

**Last Meal To Be Served
Sunday Morning To

U. S. TROOPS WILL STAY

**Reunion Removes the Last
Trace of Strife Between
the States as Vets Clasp
Hands at Gettysburg.**

(Associated Press Telegram)
Gettysburg, July 5.—Thousands of veterans began their homeward march today, after a last exchange of greetings with the new comrades they found here. Before night more than half of the army of 50,000 probably will have gone. Tomorrow the veterans will be given breakfast, the last meal in camp. That is what the army says, but those who have seen the kindness, the courtesy that has been shown to the veterans by these busy men throughout a trying week know that they will be fed as long as they stay here, if it is a month.

On the crest of Cemetery Ridge, just where the morning sun touches it with golden fingers, stands the statue which New York has raised to her men who fought and died at Gettysburg. On the tip of a tall marble shaft is the heroic figure of a woman. In her right hand is a wreath, in her left a staff crowned with a liberty cap. Her head is bowed as if in grief but that long right arm with its wreath of brass shoots out straight toward Seminary Ridge, a mile away across the fields where Longstreet stood with bowed head watching Pickett and his brave men make their futile charge.

New York raised the statue to her own dead and beneath it are half circles of graves of her men who fell here fifty years ago. It takes but little imagination to make that tall column with its speaking figure, the moulded voice of the nation. It takes but a little touch of the sentiment that has grasped every man who has come to the veterans camp to think of that outstretched hand in sorrow but benediction of an ever silent tribute to the men who lived and the men who died on this greatest battlefield of the war. Down a hundred yards through the trees around the statue runs the Emmitsburg road, the main artery from Gettysburg to the camp. Over that road in the heat of a July sun the veterans of the armies of Meade and Lee streamed today toward home, tired possibly but lifted out of themselves by four days of a reunion such as seems hardly possible in any other country in the world.

Many a veteran who passed over that road today and many who have passed before, turned with streaming eyes to catch a last glimpse of that long arm with wreath as he trudged the dusty road. It is the first landmark that stands high enough to be seen on the way to the battlefield and it is the last as the town swallows up the road.

The army tents probably will stand here until next week. The regulars (Continued on Page 8, Col. 3.)

MENINGITIS IS FATAL TO HEBRON YOUNG WOMAN

Death came suddenly to relieve the suffering of Mrs. Jason Abbott, who died at her home in Hebron on Friday after an illness of but two days of spinal meningitis.

Mrs. Abbott, who was 30 years old, had been in the best of health until stricken with the dreaded malady two days ago. She died Friday at her home about a mile from Hebron. Mourning her death are the husband and two children.

Funeral services will be held on Sunday morning at 8:30 o'clock at the Hebron Methodist church. Burial at Brownsville.

BABY FALLS FROM PORCH; HEAT CUT

The two-year-old son of Mr. and Mrs. Kenneth Jones, residing in Buckingham street, was painfully injured in a fall at the home of the parents on Friday evening.

The baby was playing about the porch when it overstepped the edge and fell to the ground. A deep gash was cut in the forehead. The child was taken to the home of Dr. W. S. Turner in North Fourth street, where three stitches were required to close the cut.

Newark's Capital Stock.

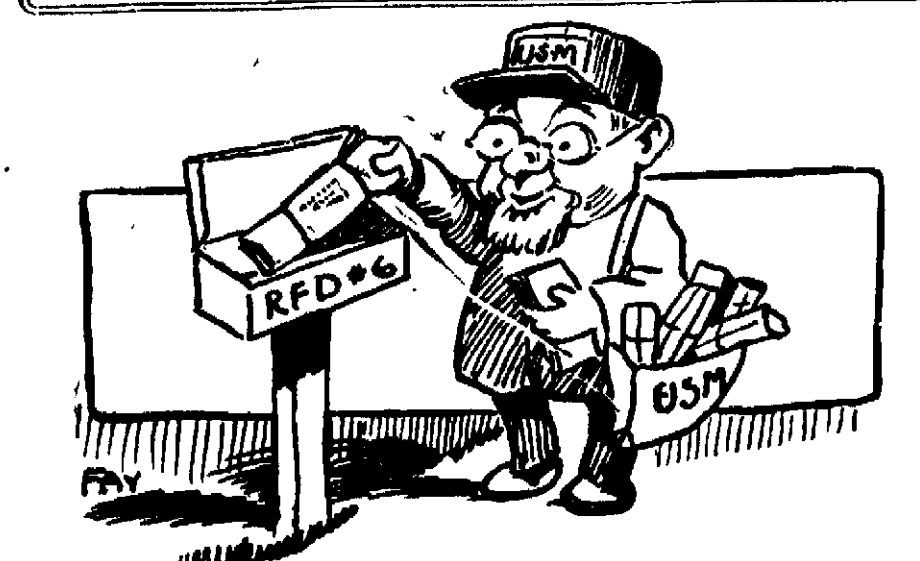

(By Chalmers L. Pancoast.)

The capital stock of a city is found in its vacant farm, garden and orchard acres; in the undeveloped beds of minerals, clay, stone, etc., and in the trade opportunities within its sphere of influence. These are what Newark has for sale. Every new factory or shop for which there may be an opening, every farm opened up or improved, every new man or family brought into this city, adds in proportion to outcome that much to the resources of the neighborhood, through the increased productive and consumptive power locally and the growth of outside trade.

The question of how best to do these things is all-important. Chiefly there must be harmony of opinion and union of effort among those concerned.

No community should be envious to hatred of what is going on elsewhere. Let enterprise beget enterprise. The world is big enough, the markets are increasing, the public is demanding new and better things, and there is always a sale for the best.

Lake Wins 50 Mile Event at Moundbuilder's Park; Kerrigan's Car is Wrecked

Whirling around the narrow half-mile race course at Moundbuilder's Park on Friday afternoon, W. G. Lake in his Ford racer won the fifty-mile event in one hour, 19 minutes and 45 seconds. Throughout the race Lake was closely pursued by August Hess, winning second in a Ford, and S. P. Upham taking third money in a Stoddard-Dayton. Lake, while running second, having crashed into the fence in his seventy-first lap, Kerrigan was injured about the shoulders and back but not dangerously.

Snorting amid the clouds of smoke that belched from the engines, the machines leaped from their stands at 2:34 p. m. and went round and round the track with Lake's Ford always in the lead, though closely pressed, until Hess was lapped by Kerrigan in his twenty-second lap and dropped back into third place, keeping several laps ahead of Upham's Stoddard-Dayton.

Dust like a sand storm arose from the track and it was almost impossible to see the cars when they were directly in the front of the spectator as soon as the fifty mile event started which followed the five mile race for single cylinder cars in which four Brush cars participated. Homer Dickens took first money in a Brush, Edward Thompson second, Otto Rinebold third, and Charles Baker fourth, only four cars being entered.

Lake lapped Hess in his twenty-

WONDERFUL CURE OF SCALP DISEASE

Half Came Out in Patches, Goodhair Soap Brought Prompt Relief.

"I have had Eczema on my scalp for twenty years. Have tried with several doctors but with no permanent good result. The first time I used Goodhair Soap my hair came out in patches as large as a silver half dollar. I was scared and thought I wouldn't have any hair left. I continued to use the soap. I was told it was only the dead hairs that had come away. I continued to use the soap, and now, after three months, all those bald spots are covered with a good growth. My hair is thicker than ever. I have no Eczema, and my scalp is healthy."

Yours Respectfully,
HENRY STEFFER,

Chavez Knocks Out Dell.

Trinidad, Col., July 5.—Benny Chavez of Trinidad knocked out Harry Dell of St. Francisco in the 11th round of a 20-round bout yesterday afternoon.

Kerrigan Spills While Passing Upham's Car

Running second in the 50-mile race at Moundbuilder's park, Leo Kerrigan, driving a Ford car was injured when rounding the curve entering the quarter stretch in his 71st lap. The right rear wheel on his car broke when he tried to cut in behind Upham's Stoddard-Dayton and Kerrigan's car crashed into the fence where it upset on top of him,

not injuring the mechanic, Thistle Priest.

He was thrown twenty feet into the air, but jumped to his feet as if unhurt. Later it was discovered that his wrist was badly sprained, his hip badly cut and that he was injured internally. He was taken to his home in a cab.

The front spring on his car was broken, the rear wheel broken off at the hub and the steering gear badly bent.

Two Auto Racers Killed at Columbus, O., Speedway; Mulford Breaks World Record

Columbus, O., July 5.—Harry C. Knight of Indianapolis, known as the "hero of the Indianapolis speedway," was almost instantly killed and his mechanic, Milton McCullis, of Houston, Texas, was fatally injured, here yesterday afternoon when Knight's car blew a right rear tire and turned turtle on the 19th lap of the 200 mile automobile race given under the auspices of the Columbus Automobile association.

Milton McCullis, Knight's mechanic, who was only 19 years old, died at the hospital last night. He had suffered a fractured skull and concussion of the brain.

Knight had been out of the race for 30 minutes because of engine trouble and had just re-entered. He was said to have been running at 70 miles an hour when the accident occurred.

John Jenkins of Springfield was following Knight at a short distance and, according to some of the witnesses ran over Knight's body which had fallen to the track. Jenkins declared he ran over something, but doesn't know whether it was a body or a part of a machine.

Knight's head was badly mashed and the top part torn off. His legs were driven to his arm pits, and the remainder of the body badly mutilated.

When the tire blew up, the car turned over twice and landed in an upright position. McCullis was thrown out at the first turn. Knight was pinned and mashed under his steering wheel, but fell out just as the car finally righted. He died almost immediately after assistants reached his side.

Ralph De Palma, who was following close on the heels of Knight and Jenkins, was running at a high rate of speed, but managed to shave by the wrecked car without smashing into it.

The accident occurred immediately in front of the grand stand and was witnessed by thousands of spectators.

Although Knight gave his residence as Indianapolis, his parents live at Jonesboro, Ind. He was 23 years of age. He gained the title of "hero of the Indianapolis speedway" several years ago when he smashed into a brick wall in preference to running down a driver who had been thrown from his car to the track.

Just previous to the time he had started again, Knight had been officially declared out of the race because of time lost with engine trouble. Regardless of the officials, he re-entered the race.

Ralph Mulford won the race, breaking the old record for 200 miles on a dirt track. He made the distance in three hours, 21 minutes and 48 seconds. The previous best time was made on the Columbus track last year by Spencer Wishart, in three hours, 28 minutes and 4 1-2 seconds.

Harry Endicot was second with the time of three hours, 45 minutes and 34 and 55-100 seconds. Ernest Reed was third with the time of three hours, 47 minutes, 53 and 65-100 seconds. Ralph De Palma finished fourth and just within the prize money, with the time of four hours, 12 and 61-100 seconds. Prizes aggregated \$5,000.

ZANESVILLE AND COLUMBUS BROKE EVEN IN 2 GAMES

Columbus and Zanesville broke even in the holiday bill offered Newark fans on the Fourth of July at Whirlie Park. From a financial standpoint, the venture was probably not profitable, but as an indication of the sentiment of Newark towards Interstate league baseball, it was a success. The twelve hundred fans enjoyed the two games immensely and the Zanesville team enjoyed the unique experience of the staunch support of a Newark crowd.

Los Angeles, July 5.—With a right swing to the jaw, Leach Cross, the New York lightweight, knocked out "Bud" Anderson of Oregon, yesterday in the twelfth round of what was to have been a 20-round battle at Vernon Arena. The blow landed with terrific force and Anderson was unconscious for more than four minutes.

The Oregon boy had been a favorite it odds as high as 2 to 1. When he went down he struck with a thud and his inertness as he lay in the ring silenced the usual plaudits for the winner. The crowd feared he was dead. Cross, instead of retiring from the ring, bent anxiously over his prostrate adversary, and when Anderson finally rallied, the vanquished pugilist was helped to his corner by the victor. Anderson was so weak that he was carried to his dressing room.

Brown Cancels DATE FOR BOUT WITH GRIFFITH

Cleveland, O., July 5.—At the last minute a telegram from New York announced the withdrawal of "Knockout" Brown from his ten-round bout with Johnny Griffith of Akron, O. Light-weight, which was to have been staged at Put-in-Bay today.

Brown has resolved not to meet Griffith July 5th, the message said. The Yachnow of Cleveland was secured to fill Brown's place in order not to disappoint the hundreds who had already purchased tickets.

O'TOOLE LOSES HIS APPENDIX

Pittsburgh, Pa., July 5.—Marty O'Toole, a member of the pitching staff of the Pittsburgh National league club, was operated on early yesterday for appendicitis at a local hospital. The fact did not become generally known until last night. It is said O'Toole will not be able to play ball again this season. Mrs. O'Toole, wife of the pitcher, is just recovering from a similar operation.

Al Bader and Frank J. Bader have each received a new Cadillac six passenger 50 horse power automobiles. The machines are of the self-starter type and are very attractive models.

W. S. Weint has purchased a new six-passenger Studebaker automobile, which is attracting attention. The car is 45 horse-power, and has a black finished body.

Bowling Green, O., July 5.—Clarence Crosby, 18, of Toledo, was killed at the fair ground in Bowling Green, July 4 when his hold on the trapeze was broken while making a balloon ascension before 8,000 people. He fell 300 feet, his skull was crushed, his neck and arm broken.

Edison's Talking Pictures.

The motion picture of Mayor Cuyler of New York City and his cabinet officers, which is one of the varied program to be shown at the Auditorium on Thursday, July 10th, matinee and evening gives an idea of the use to which this latest Edison invention will immediately be put.

EDISON'S TALKING PICTURES
At Auditorium Next Thursday, as a Special Feature.

The film will show the five executive heads of New York City grouped about a table in the cabinet room of the Executive chambers. The Mayor's official family, one by one, deliver a concise argument regarding their respective departments. William J. Gaynor, Mayor of Greater New York, Police Commissioner Waldo, Fire Commissioner Johnson, Street Commissioner "Big Bill" Edwards and Secretary Adamson will be seen and heard in turn.

The picture and its accompanying record on the Kinetophone was made as the first historic reference for future generations and a copy has been placed in the New York Historical society's archives to be unsealed at the end of one hundred years.

It takes but a short stretch of the imagination to conceive the use to which this latest perfected invention of the wizard Edison will eventually be put.

Gettysburg Film.
"The Battle of Gettysburg" which has "missed connections" for two

days arrived this morning and will be shown at the Auditorium tonight and tomorrow. Tomorrow's entertainment will start at 1:30 and 7:30 continuous until 11 p. m. The matinee price is 10 cents and evening 10 and 20 cents.

Jackson's orchestra will furnish the music.
"The Dead Secret," from Wilkie Collins' famous novel of the same name with Marion Leonard in the leading role will be presented at the Auditorium Monday July 7th.
"In the Toils of the Devil," companion piece to "Dante's Inferno"

"The Trapper's Mistake." The trapper's wife forgot to tear up the note that said she was going away. So when the Redskins caught her and carried her off, the trapper naturally thought she had run away with his best friend. How the three met in the thick of a fight with the Indians, how the two men confront each other and the woman explains—that's the skeleton of this crack-erjack frontier photoplay by the Pathe company. It's in two reels.

J. S. WALKER'S FALL PROVED FATAL

James Stewart Walker of Hopewell township, who fell several weeks ago and broke his hip, died as a result of the fall at 1 o'clock Friday afternoon at the Good Samaritan hospital, Zanesville. The news of his death was a great shock to his many friends in the eastern part of the county.

Mr. Walker had lived on a farm in Hopewell for many years. He was a graduate of Union college at Schenectady, N. Y., of the class of '58. He was born in Mt. Perry 84 years ago and was prominent in the county's social and business life.

The funeral will be held at the home of C. U. Shroyok in Zanesville. Interment will be made in Woodlawn cemetery.

MAMMOTH CROWD AT LAKE FOR THE FOURTH

Buckeye Lake Park proved the mecca for pleasure seekers on the Fourth and the facilities of the Ohio Electric lines were taxed in caring for the transportation of the enormous crowds that packed the park during the day. It is estimated that 10,000 transits visited the Lake on Friday, these with the people occupying the cottages made an enormous gathering.

Over 2,000 tickets were sold during the day from Newark alone, and in spite of the crowd but one accident occurred during the day, that when a Columbus man broke his ankle. Several received duckings by missing the boat while stepping off at the piers, but at no time were there any serious accidents.

All the visitors were well entertained and the dance halls were thronged by hundreds. During the early evening hours the lake was crowded with all kinds of craft, and during the morning and afternoon the regatta of the Buckeye Lake Yacht club afforded entertainment. Noddery's hand gave two delightful concerts, and the singing of the vocalists proved to be a real treat. A special vaudeville program was given and in the evening the program of the day concluded with a lavish display of fireworks.

All cars in and out of the park carried trailers and at midnight nearly all of the visitors had been taken from the park. While Friday's crowd was not the largest that has ever visited Buckeye Lake, it was one of the most orderly and well conducted, and proved exceptionally profitable to the management.

TODAY'S RECORD OF THE PUGILISTS

1909—Stanley Ketchel and Billy Papke fought their fourth battle for the middleweight championship at Colma. The bout went the full 20 rounds without either man scoring a knockdown, and the victory was awarded to Ketchel on points. Of the four bouts between the "Thunderbolt" and the "Assassin," each won by a knockout, and each was once the victor by decision of the referee.

1897—Tom Sayers defeated the Tip-top Slasher for the English heavy-weight championship.

1909—Jack (Twin) Sullivan was defeated by Frank Mantell in 20 rounds at Sacramento.

LUMP OF COAL MASHED HIS FOOT

Biazo de Grandimonte, employed in the yards by the B. & O. Railroad company, had his right foot mashed when a large lump of coal fell on it Saturday morning.

Biazo was engaged in switching cars, and when they came together a small slide of coal from one of the cars struck him. A large piece struck his right foot, and he was so seriously injured that Biazo & Bradley's ambulance was called and he was taken to the Newark Sanitarium. Dr. McClure, B. & O. physician, attended him.

CHESTNUT WOOD BURIED 50 YEARS IS WELL PRESERVED

While excavating in the Granville street sewer Friday afternoon John Baird discovered pieces of chestnut wood which had been thrown into an abandoned well probably more than fifty years ago. The well was

discovered opposite the residence of Richard Kear and residents in the vicinity state that it was filled up by the owner more than fifty years ago. The wood is in a remarkable state of preservation and that is what caught Mr. Baird's fancy, the gentleman being an expert in forestry. Contractor Henderson who is building the sewer states that it is one of the most remarkable cases of wood preservation that has ever come under his observation.

DR. HUNT LOCATES IN WALTHAM, MASS.

Dr. Emory W. Hunt, who for more than ten years has been president of Denison University, has left Granville and taken up his residence in Waltham, Mass., 351 Crescent street.

Dr. Hunt resigned the college presidency to accept the general secretaryship of the American Baptist Foreign Missionary society with headquarters in Boston. His work will call for consultation with those having interest and spirit at home and also the direct work on the foreign field.

Newark and Granville friends alike are sorry to lose Dr. Hunt but they realize that his new work gives him a bigger and broader field and know that he is well fitted to do what is to be done.

Dr. Clark W. Chamberlain, president-elect of Denison, is still in Europe and has not as yet given his decision but it is thought he will accept the presidency.

Petition To Kill The One Per Cent Tax Law

Downright misrepresentation and falsehood are resorted to by certain parties who are procuring signatures to referendum petitions against what is known as the Kilpatrick bill passed by the last legislature. The Attorney General has made a specific statement that the sole object and purpose of the Kilpatrick bill is to preserve and protect the Smith One Per Cent tax law that has proved to be such a blessing to the thousands of tax payers for the past two years; that it was to preserve the one per cent limitation to the farmers of Ohio; that it was to protect the people from excessive taxation that the Kilpatrick bill was passed.

And yet the big Liability Companies with their blood money are soliciting signatures for a referendum on this act solely because a paid talker can make profession about the sacredness of the Smith one per cent law which, he says, has been attacked by the Kilpatrick law, but which the Attorney General says has been saved by the Kilpatrick law.

The man who wishes to prevent the Smith One Per Cent Tax law from being practically rendered null and void will refuse to sign the referendum petitions being circulated under the auspices of the syndicate of Liability Companies whose headquarters are at Cleveland, Ohio, and who are organizing and conducting this corrupt campaign against the interests of the people.

The Forged Petition Against Workmen's Compensation Law

In view of the fact that so many of the Newark citizens whose names are on the referendum petition against the Workmen's Compensation or Employer's Liability law, protest that they never signed the petition, and that their names have therefore been forged, the Advocate will print on Monday next, the full list of the 449 Newark names to the petition as filed in the Secretary of State's office.

Then every citizen whose name has been fraudulently placed on the petition can come to the Advocate office and sign a statement that he never signed the petition, with the view that said statements may be published for the protection of all whose names have been forged and to show the extent of the crookedness that has been perpetrated.

FADING SECTIONALISM.

When Blue met Gray at Gettysburg, there were more than perfunctory handshakes. It was not merely that rumor had been blotted out by the gray mists of 50 years oblivion. It was not merely that whatever misunderstandings have occurred between North and South have been created more by politicians and grafters than by the old soldiers. Kindly Father Time heals all scars. The men who once stood against each other in deadly hate now seem to have a positive affection. Their common share in an awful experience creates a kinship. The man whom you fought 50 years ago seems closer than the indifferent youth of today, to whom war is merely disagreeable because it has to be studied about in school.

Railroads and travel are greater forces for peace than any.

As an evidence of their growing business, John H. Renard company, the Wheeling advertising agents, have moved their Pittsburg branch from the Oliver Building to enlarged quarters in the Farmers' Bank Building, Mr. E. E. Keller, formerly of the Keller Commercial Art Studio of Batavia, N. Y., has taken charge of the new office.

With its increased facilities, this agency is now one of the best equipped in the country. As it employs no solicitors, its growth may be said to be the result of successful advertising service backed up by the personality and character of its officers.

Among its clients are the Marietta Paint and Color Co., whose striking advertisements are familiar to the readers of the Advocate.

FIVE ZANESVILLE CELEBRANTS SHOT

Zanesville, July 5.—Five were injured in Fourth of July accidents, Ray Waters, aged 21, shot himself in the right leg while examining a 22-caliber revolver. Physicians were unable to find the bullet. Arthur Boetcher, aged 12, Herman Hook, aged 10, and Charles Wolfe, aged 14, were wounded in the hands when pistols exploded and sent wadding into the palms.

Samuel Miel, an Italian lad, tried to fool his American brothers in celebrating, and a firecracker flew into his eye. The sight will be saved.

On Second Thought

The Advocate's Fourth of July edition made a great hit with the people. Many subscribers have expressed their appreciation and the street sales speak volumes for the enterprise. It cost the Advocate twice the ordinary price to issue a paper on a holiday, but nothing is too good for Advocate subscribers.

AMERICAN RAG-TIME.

The American rag-time songs, it is said, are the rage in Europe this summer. Good authorities assert the rag-time movement, formerly regarded as mere trash, does contain an originality that entitles it to be considered as a "folk song," an expression of the life of the people, not some conventional and commonplace thing made according to rules found in books.

The erratic division of rhythm in rag-time—technically called syncopation—undoubtedly fits the American temperament. Stately and formal dances do not suit our young people. They want a rhythm that calls for vigorous motion, not fixed by arbitrary dancing master rules.

The trouble with the ordinary rag-time is that most of it is written by mediocre musicians. Their harmonies and melodies are of about the character you would find in a book of kindergarten songs. One sounds just like another, and the melodies of 1913 are indistinguishable from those of 1912.

Keller, formerly of the Keller Commercial Art Studio of Batavia, N. Y., has taken charge of the new office.

With its increased facilities, this agency is now one of the best equipped in the country. As it employs no solicitors, its growth may be said to be the result of successful advertising service backed up by the personality and character of its officers.

The first company of the Salvation Army was organized by William Booth at Mile End, England, forty-eight years ago today, and the branches of the army throughout the world are already making plans to celebrate the semi-centenary two years hence. The founder, the late General Booth, and his wife, started out from the Methodist New Connection to reclaim the wayward, the neglected and degraded. They organized their work in the east end of London, naming it the "Christian Mission," but the project was not very successful until the idea of a military organization was, to use Booth's phrase, "revealed" to him. It was not until 1878 that the military organization became fully effective, with Booth as "general." The army had to fight its way to recognition, for its street meetings, both in European and American cities, were at times broken up by the police and leaders jailed or fined. The uniforms of the men, the poke bonnets of the women, the songs, and the "music" of drums and tinbrels, served the purpose of drawing the crowds to hear the preachers, who held forth at the "barracks." Wives Brave Heat.

While a great many women have left Washington, a large number of wives of senators and representatives have determined to brave the heat of the capital and remain in Washington until the end of the session. They prefer to live as families rather than to wander alone about their homes or seek pleasure resorts.

The Human Procession

Mrs. Katherine Tingley, the international leader of the Universal Brotherhood and Theosophical Society and the "purple lotus mother" of Point Loma, Calif., will celebrate her sixty-first birthday tomorrow. With a number of her disciples, and a party of pupils from Raja Yoga College, Mrs. Tingley recently went to Sweden to attend an international peace congress of the theosophists. The leader of the cult has spent most of the last year in Europe, where she arranged for Italian and Scandinavian propaganda headquarters.

The "purple mother," who claims to be the successor of Helena Petrovna Blavatsky, the Russian woman who founded theosophy, and William Q. Judge, the Irish-American lawyer who was responsible for the development of the cult on this side of the Atlantic, was born at Newburyport, Mass., July 6, 1852. She claims descent from early colonial stock. She became prominent in theosophical circles in 1896, following the death of Mr. Judge, and soon claimed to be the "outer head" of the "inner school" of the cult, a claim that was denied by Annie Besant. The warfare between the women resulted in a split in the ranks of the disciples of "universal brotherhood," and they are now divided into rival camps, one section looking to Mrs. Besant for inspiration and the other branch to Mrs. Tingley.

The Theosophical Brotherhood colony at Point Loma, near San Diego, Cal., is located on one of the most beautiful spots in the land of sunshine and flowers. The buildings are on a peninsula jutting out into the Pacific, and include academies for children of all ages and both sexes, an orphan school, publishing house, Raja Yoga college, a "school of antiquity," and other institutions. There is also an outdoor theatre of white marble, where are staged dramas written by members of the school. A Raja Yoga college along the same lines as the one at Point Loma will soon be established in Sweden. The California colony was established in 1890. At first there was much opposition to Mrs. Tingley's educational methods, but this spirit has now died out, and most of the people of San Diego now consider Point Loma a valuable asset as one of the "sights" for tourists.

Mrs. Tingley has nothing but scorn for the militant suffragettes, although she says that many of the principles of suffrage are excellent. As to the relations of theosophy to universal peace, she says:

Theosophy imparts new life to everything it touches. This is because it reaches the indwelling of human character, and thereby calls forth in every man the strength of his own higher nature. Theosophy may therefore claim the ability to approach the question of international peace from a new standpoint and impart to it a new and effective force.

RESINOL STOPS SKIN TORMENTS

How This Wonderful Ointment Ends Itching and Heals Skin Eruptions.

The soothing, healing medication in Resinol Ointment and Resinol Soap penetrates every tiny pore of the skin, clears it of all impurities, and stops itching instantly. Resinol positively speedsily heals eczema, rashes, ringworm, and other eruptions, and clears away disgusting pimples and blackheads, when other treatments prove worse than useless.

Resinol is not an experiment. It is a doctor's prescription which proved so wonderfully successful for skin troubles that it has been used by other doctors all over the country for eighteen years. No other treatment for the skin now before the public can show such a record of professional approval. Every druggist sells Resinol Ointment and Resinol Soap, but you can test them at our expense. Just write to Dept. 7-M, Resinol, Baltimore, Md., and we will send you by parcel post a generous trial of each, with the two new Resinol Books.

Daddy's Bedtime Story—The Flower Weather Prophets And the Rain.

Daddy Looks at the Morning Glories.

Daddy sniffed the air. "Rain tomorrow," he announced.

Jack and Evelyn looked disappointed. "We wanted to go picnicking tomorrow in the woods," they said.

"Well," daddy advised, "when you get up go out into the garden, take a look at the morning glory vine, then trot over to the patch in the garden where the pimpernels are growing. After that take a look at the celandine, then go out in the field and hunt some bindweed. Should the flowers of these plants be closed I should say do not go to the picnic."

"Some flowers are good weather prophets. Many a morning daddy has started out without an umbrella. Perhaps the sun may have been shining. If, however, the morning glories by the gate had not opened their little cups your daddy would step back to the house and get his umbrella. Many a time he has thus escaped a drenching. The pimpernel is the safest weather prophet of all. Some one has named it the 'poor man's weather glass.'"

"Why do the flowers close before rain? Well, some say because of the moisture in the air the sun does not then shine so brightly as usual. Your daddy does not really know whether it is because the flowers want more light or do not like the dampness in the air."

"Perhaps this little story may answer your question. Once on a time there was a little morning glory that wished to do as she pleased."

"When you saw her lovely purple cup you thought her the most beautiful of her kind. The little morning glory was vain. She wished every one to see and admire her."

"The humblenoses and the honeysuckles that stopped at her door for something to eat were very flattering. She was too silly to know that these winged troops only praised her because they wanted food."

"You would better close your door today," the pink morning glory on the next vine said to her one day. There were clouds in the sky, and they looked like storm clouds.

"No, indeed," the purple morning glory answered; "I like to see the world. Close your own door if you like, but mine shall stay open."

"It is going to rain, and you will be sorry," warned the pink morning glory, not noticing the snub.

"I don't care," the purple morning glory said, and just then the shower began. It rained, and it rained, and because she had not closed up as the other morning glories did her cup was soon filled with water. All her lovely bloom was washed off, and when the sun came out a battered and dying morning glory drooped on that stem, while the others, unharmed, opened up to drink in the warm sunshine again."

Practical Assistance

In making hundreds of loans for the building of homes, our officers have of course become very familiar with practical home building and their experience is at the command of all who make building loans here. COMPLICATION OF WOMAN'S ILLS

Yields to Lydia E. Pinkham's Vegetable Compound.

Athens, Texas.—"I had a complication of diseases, some of them of long standing. I wrote to you for advice and took Lydia E. Pinkham's Vegetable Compound, and some other things that you suggested. I must confess that I am much better in every way and have been relieved of some of the worst troubles. My neighbors say I look younger now than I did fifteen years ago."—Mrs. SARAH R. WHITLEY, Athens, Texas, R. F. D. No. 3, Box 92.

We know of no other medicine which has been so successful in relieving the suffering of women, or received so many genuine testimonials, as has Lydia E. Pinkham's Vegetable Compound.

In nearly every community you will find women who have been restored to health by this famous medicine. Almost every woman you meet knows of the great good it has been doing among suffering women for the past 30 years.

In the Pinkham Laboratory at Lynn, Mass., are files containing hundreds of thousands of letters from women seeking health, in which many openly state over their own signatures that they have regained their health by taking Lydia E. Pinkham's Vegetable Compound, many of them state that it has saved them from surgical operations.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

OVERHEARD on OLYMPUS

The Benedict and the Bachelor in Summer

"THIS is about the only time of year," said Petrarch, "when I envy a married man."

"You're foolish ever to get that bug, no matter what the season," replied Socrates, gloomily. "I know we are all apt to want mistake," he looked around apprehensively, to see if Xantippe was within earshot, "of envying a married man. Take it from me, marriage isn't all it's cracked up to be."

"Oh, I agree with you there," replied Petrarch, cynically. "If I ever had any bias toward marriage," his thoughts for a moment flew to Laura, "I have gotten over it. But I was thinking just now the married man has some pleasures denied the single man."

"I'd like to know what?" responded Socrates, still buried in gloom.

"Well, you know the summer girl just now flourishes. And a bachelor when he's talking to her can't help being a bit apprehensive that he may become engaged before he knows it. Without doubt," went on Petrarch, his face brightening, "there's a certain pleasure in talking to a pretty girl on the beach, with the moonlight hiding her freckles, and with her profile turned toward you just right, or in drifting around in a canoe with her singing to you in a voice of gold. But every little while you get a sort of chill for fear you've said something the jury would consider implicating. One can't help being a little absent-minded you know under such circumstances. And so you see, you can't enjoy the situation as fully as you might. Now a married man has no such qualms. He's married. And the girl knows it. And so she has no hopes. He knows very well that while she's talking to him she isn't mentally choosing her bridesmaids and planning her wedding gown; and so he can study her profile, and say all the things he wants to say without a single inward qualm."

"That's all very well so far as it goes. Maybe so far as she is concerned, he has no misgivings. But he never knows what minute his wife will land on him. And I tell you, the designs a girl can have are nothing to the militant tactics of a wife. No, my boy, don't you think the married man has a good time either summer or winter. Don't you get any foolish ideas in your head about envying him. I think I hear Xantippe now," he said, rising nervously. "Don't mention our conversation to her, will you?"

Petrarch gazed after him, gloomily. "Of course, he'd say that. But all the same, a bachelor's existence in the summer is one of perpetual danger. He never dares relax his vigilance. And he can't enjoy himself under such a strain. Whereas all a married man has to do is to fly his colors and he's safe. And a pretty girl is just as pretty, whether a man's married or single."

He heaved a sigh. "I wonder if I could take out any kind of insurance against such a risk. Being a poet and famous, makes the danger all the greater."

COL. I. N. MILBURN

Well Known Resident of Lima Township Dies at His Home Near Summit Station Saturday Afternoon.

Col. I. N. Milburn, age 79 years, one of the best known and most highly respected farmers of Licking county, died Saturday afternoon shortly after 2 o'clock at his home in Summit Station, following an illness of several weeks from infirmities due to advanced years.

His death was not unexpected, as it was known that his usually rugged constitution was wasted and that his death was only a matter of days.

Col. Milburn has been prominent in the affairs of his home county for many years, in fact until his age com-

elled him to relinquish the activities of which he was so fond. He has been a life long Democrat, a firm believer in the fundamental principles of that party. He was a deep student of economics and matters of general political interest. He acquired a considerable reputation as a writer on those subjects and his writings show a broad minded study of whatever subject he considered.

Colonel Milburn was born in McKean township November 18, 1834, being the son of Andrew Milburn, who came to this county in the early thirties. Mr. Milburn was educated in the district schools of McKean township, and after reaching young manhood, he enlisted in Co. H 31st O. V. I., serving through many of the prominent engagements, particularly in Tennessee and Georgia.

He was united in marriage February 9, 1855 to Miss Jennie Rush. The widow with three sons and one daughter survive. The children are Rev. H. S. Milburn, pastor of the First United Methodist church, Kansas City, Mo.; Edwin Roy and John F. Milburn, both employed by the B. and O. at Chicago Junction, and Mrs. J. L. Converse of Union county.

No funeral arrangements have been made.

"Counselor Ther fore."

Sergeant Kells, a celebrity of the Irish bar, had a remarkable habit of drawing conclusions directly at variance with his premises and was consequently nicknamed "Counselor Therfore." In court on one occasion he thus addressed the jury: "The case is so clear, gentlemen, that you can not possibly misunderstand it, and I should pay your understandings a very poor compliment if I dwell upon it for another minute. Therefore I shall at once proceed to explain it to you as minutely as possible."

ECZEMA BROKE OUT IN WATER BLISTERS

Scratched It So Hard All Sore. On Hand, Then or Legs. Cuticura Soap and Cuticura Ointment Cured in Six Weeks.

748 Congress St., Chicago, Ill.—"My eczema broke out like little water blisters. Each one was full of water and would itch until I would scratch it open, then the water would run out, and it would get sore. I first got the eczema on the back of the hand and I scratched it so hard I made it all sore. Then I got it on my legs just above the ankle and above the knee."

"I used what they call — and it stopped the itch but it got worse. Then I used — In all I had the trouble for about two years. One day I saw the advertisement of Cuticura Soap and Ointment in the paper. I wrote for a sample of Cuticura Soap and Ointment and I tried them and then bought some more. Cuticura Soap and Ointment left my sores nice and smooth. I used them for six weeks, and am now cured; the eczema left no marks." (Signed) F. W. Horrich, Oct. 19, 1912.

Although the Cuticura Soap and Ointment are most successful in the treatment of affections of the skin, scalp, hair and hands, they are also most valuable for everyday use in the toilet, bath and nursery because they promote and maintain the health of the skin and hair from infancy to age. Cuticura Soap (25c.) and Cuticura Ointment (50c.) are sold every where. Liberal sample of each mailed free, with 32-p. Skin Book. Address post-card "Cuticura, Dept. T., Boston."

Men who shave and shampoo with Cuticura Soap will find it best for skin and scalp.

The Harvest.

Where the river winds through grassy meadows as sure as the south wind brings the rain, sounding his note in the reedy alders, the startling comes back to his nest again. Are these not miracles? Promptly you answer, "Merely the prose of natural fact; nothing but instinct plain and patent, born in the creatures, that bids them act." Well, I have an instinct as fine and valid, surely, as that of the beasts and birds, concerning death and the life immortal, too deep for logic, too vague for words. No trace of beauty can pass

or perish, but other beauty is somewhere born; no seed of truth or good be planted, but the yield must grow as the growing corn.—Bliss Carman.

A MISSET NAME.

Little Florence climbed upon her father's lap on her birthday and put her arms around his neck. Father always called her Toodles, and until now she had answered to the name. But now she looked at him in surprise. "Why, I'm three now. I should think you'd call me 'Threedeles,'" she said.—Judge's Library.

Franklin's Kite Experiment.

Commenting on Benjamin Franklin's kite experiment, which proved that lightning and electricity are the same, a scientist says: "It was one of the most brilliant examples of luck yet recorded. To attempt the extraction of lightning flashes from a lowering sky was almost suicidal. Even at this late day timid persons occasionally fly to feather beds, sit on glass legged chairs or find refuge in rubber boots during thunderstorms. A repetition of Franklin's experiment cost his immediate imitator his life."

"All is Well That Ends Well"

Along with dyspepsia comes nervousness, sleeplessness and general ill health. Why? Because a disordered stomach does not permit the food to be assimilated and carried to the blood. On the other hand, the blood is charged with poisons which come from this disordered digestion. In turn, the nerves are not fed on good, red blood and we see those symptoms of nervous breakdown. It is not hard work that does it, but poor stomach work. With poor thin blood the body is not protected against the attack of germs of grip—bronchitis—consumption. Fortify the body now with

LORD & TAYLOR NEW YORK

\$3.50 RECIPE CURES WEAK KIDNEYS, FREE

Relieves Urinary and Kidney Troubles, Backache, Straining, Swelling, Etc.

Stops Pain in the Bladder, Kidneys and Backs.

Wouldn't it be nice within a week or so to begin to say goodbye forever to the scalding, dribbling, straining, or too frequent passage of urine; the forehead and the back-of-the-head aches, the stitches and pains in the back; the growing muscle weakness; spots before the eyes, yellow skin; sluggish bowels; swollen eyelids or ankles; leg cramps; unnatural short breath; sleeplessness and the despondency?

I have a recipe for these troubles that you can depend on, and if you want to make a quick recovery, you ought to write and get a copy of it. Many a doctor would charge you \$3.50 just for writing this prescription, but I have it and will send it to you entirely free. Just drop me a line like this: Dr. A. E. Robinson, 1429 Luck Building, Detroit, Mich. I will send it by return mail in plain envelope. As you will see when you get it, this recipe contains only pure harmless remedies, but it has great healing and pain-conquering power. It will quickly show its power once you use it, so I think you had better see what it is without delay. I will send you a copy free—you can use it and cure yourself at home.

PEACE MAKER GETS WORST OF SALOON FIGHT

Results have again proven that it is the peacemaker who eventually "gets the worst of it," for while trying to separate two men who were fighting in a saloon in West Newark Max Dold received an ugly knife wound, on Friday afternoon.

The two antagonists were getting to the well advanced fight stage when Dold decided to interfere. For his trouble and kindly intentions a butcher knife was thrown at him. The sharp knife caught him on the upper part of the right leg, cutting it to the bone.

The wound bled profusely and the man was taken to the office of Dr. Harry Postle, where it required five stitches to close the gash.

Dold is a boiler maker and makes his home at the Commercial club rooms.

TOLLET PINCHED BETWEEN CARS SENDS HIS WIFE AS MESSENGER

J. E. Tollet a B. & O. conductor, residing at 68 Wing street, this city, had his chest crushed and several ribs broken while coupling cars at Butler yesterday at 2 o'clock in the afternoon.

He was attended by doctors at Butler and brought to Newark at 4:20 in a caboose. He was met at the railroad by Bazler & Bradley's ambulance and taken to his home, where doctors J. G. Shirer, H. B. Anderson and W. E. Wright attended him.

The injuries are not fatal and he was somewhat improved Saturday.

LIFE CERTIFICATES ARE GIVEN UTICA TEACHERS.

Within the past few days state life certificates were received by two of Utica's corps of teachers, as a result of the recent state examination held in Columbus. The one, a common school life certificate under the old law was received by Mr. James G. Ralston, assistant in High school, the other, a High school life certificate under the old law, was granted to Supt. C. P. Smith.

Both Mr. Ralston and Mr. Smith have been connected with the Utica schools for a number of years, and well merit this recognition from the state board of school examiners.

The Lodges

MODERN WOODMEN.

Cedar Camp No. 427, M. W. of A. met in regular session Monday night but because of the weather being so warm only a short session was held. Fifteen applications for membership were presented and elected. A class will be adopted on the next regular meeting and a committee was appointed to serve refreshments. Neighbor Redding is certainly producing new applications for membership and if the neighbors have any prospects for membership they are requested to call up the clerk and the prospect will be given to Deputy Redding. Neighbors are desired to come out for the next meeting. The camp will put on the beneficial degree and then will give plenty of ice cream and cake.

An invitation was received from Columbus stating that the combined camps of Columbus would hold a basket picnic and log rolling at Olentangy park on Wednesday, July 16th, and members of Cedar camp are invited to attend. Free admission tickets will be on hand at the clerk's office for all those who desire to go. There will be competitive drills by the various forer teams and the prizes are \$50.00 for first, \$25.00 for second and \$15.00 for third.

I. O. O. F.

Olive Branch lodge, No. 34, I. O. O. F., met in regular session Tuesday evening, July 1. Attendance was fair, and only the routine business was transacted. Next regular meeting night there will be installation of officers and considerable business will be transacted. It is desired that as many brothers be present as possible.

NEWARK LODGE NO. 13, K. OF P.

KIDS DIDN'T LIKE IT.

Washington, July 5—There were cries of discontented children as a result of a "freerackless" celebration of Independence Day. For the first time in years, the fine department virtually had nothing to do. Two parades and some patriotic and athletic events was the extent of the day's celebration in the national capital.

FRED WERNER DEAD.

Crookville, July 5—Fred O. Werner a well known china potter and the Socialist leader in this section is dead.

PLEASURE INSTEAD OF PAIN

For the past eight years we have been using Vitalized air for extracting teeth painlessly. Thousands have had their teeth extracted by this method, painlessly and pleasantly. Hundreds would have suffered through life with diseased, aching teeth had it not been for our modern method of extracting.

It is a great pleasure for us to now be able to announce to the public that we have installed an elaborate, modern equipment for the use of nitrous oxid and oxygen in performing any and all kinds of dental operations, such as crowning, filling and bridge work, without a particle of pain. This is not a far nor fancy dream, the method has been given a thorough test and is absolutely safe and reliable both for young and old, and we now offer something to the people of Newark and surrounding country that has long been looked forward to—PAINLESS DENTISTRY. We back this with our past reputation.
